

# License for 2N® Helios IP - How to get it

When delivered, all 2N® Helios IP units come with Basic license. Only exception is 2N® Helios IP Vario with display, keypad (possibly also with camera) which comes with preloaded Gold license. If you want to buy additional license for all other models, the procedure is follows:

1. If licensed features are required immediately or you just want to test all features supported by 2N® Helios IP, please activate 800 hours trial period in web interface of the unit. Go to section "Tools → License" (it is for FW version 2.5 and older) or to section "System → License → Trial License" (for FW version 2.6 and newer).
2. Check with your Account Manager or local reseller in which license you need to activate desired features. You can choose from several different license packages as shown mentioned below. You can also read more information about license policy in "2N® Helios IP Configuration manual".
  - Enhanced Audio (Part No. 9137905)
  - Enhanced Video (part No. 9137906)
  - Enhanced Integration (Part No. 9137907)
  - Enhanced Security (Part No. 9137908)
  - Gold (Part No. 9137909)
  - G.729 (Part No. 9137902)
3. Once you choose the appropriate license, please contact your 2N reseller! If you are 2N partner, you can contact our Customer Care department at [customer care@2n.cz](mailto:customer care@2n.cz) and they will generate it to you. Please do not forget to specify serial number of your 2N® Helios IP unit in your request!
